USB ports	Requirements USB ports Product standard	WG4 – IEC TC 61	2019 CTL Plenary Meeting

Question

Which requirements must be considered for USB ports used in appliances other than covered by IEC 60950-1 or 62368-1 products (see some non-exhaustive examples of products below)?

Decision

USB ports and relevant supply used in or with household and similar appliances shall always be tested considering the requirements in the series of standards IEC 60335 for USB ports.

USB ports and relevant supply used in or with electric toys shall always be tested considering the requirements in IEC 62115 for USB ports.

Explanatory notes
The above decision has been taken at the Busan meeting of IEC TC 61 (October 2018).
