COLLECTION OF CTL DECISIONS

Standard: GENERALITY	**Sub clause: -**	**Sheet n.256A** **Page 1(1)**
Subject: Thermal evaluation and classification of electrical insulation	**Key words:** **- material data sheets** **- electrical insulation**	**Decision 21 of 34th meeting/1997**

Question:

Can the manufacturer data be used for the thermal evaluation and classification of electrical insulation ?

Decision:

Yes, the manufacturer data can be used to determine the classification of electrical materials according to IEC 85.

Explanatory notes:

If problems would occur, the CTL Expert Task Force n. 2 (IT and office equipment) should take care of them.
