DECISION SHEET

Standard(s)- (year and edition): IEC 60601-1:1988 Ed.2 Am1+Am2	**Sub clause(s):** 10.1 10.2	**Sheet n°:** **DSH-413**
Subject: Environmental conditions specified by the manufacturer	**Key words:** Environmental conditions	**Confirmed by CTL at its 39th meeting, in Cologne**

Question:

Compliance with the conditions of 10.2 is checked by application of this standard.
10.1 is no longer included in Amendment 2 of 601-1 replaced by "EQUIPMENT shall be capable, while.....environmental conditions as stated by the manufacturer (see 6.8.3 d))".

Decision:

EQUIPMENT shall comply with the requirements of this Standard after being exposed to the environmental conditions specified by the manufacturer.

Compliance may be checked by testing and/or inspection of documentary evidence.

Explanatory notes:

Instead of "EQUIPMENT shall be capable...", we should read something like: After packing, transport and storage, the EQUIPMENT shall be in compliance with the standard.
Sub-clause 10.1 does not contain any therefore we recommend that a compliance paragraph should be added. Further work is needed.
