COLLECTION OF CTL DECISIONS

Standard:	**Sub clause:**	**Sheet n. 334**
IEC 61010-1:1990 +A1:1992 + A2 :1995	6.10 Connection to mains supply source	**Page 1(1)**
Subject:	**Key words:**	**Decision n. 23 taken at 37th meeting/2000**
Connection to mains supply source	- Mains supply source - Connections between parts	

Question:

This clause specifies requirements for connections to the mains supply source and connections between parts of equipment. Clause 6.10.1 specifies requirements only for mains supply cords, where are the requirements for connections between partsof the equipment ?

Terminology for the connecting cords? Note, Figure 3 of 61010-1 shows terminology for mains supply cord.

Decision:

It has been agreed that where such connections are at mains potential than the requirement of sub-clause 6.10 applies.

Explanatory Notes:

There are requirements for interconnecting cords for connecting parts of a system under IEC61010-1.

Where interconnecting cables are at mains potential, it is important that such cords are at least equivalent to the supply mains cord requirements.
