About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigenda or an amendment might have been published.

Useful links:

IEC publications search - www.iec.ch/searchpub

The advanced search enables you to find IEC publications by a variety of criteria (reference number, text, technical committee,…).
It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available on-line and also once a month by email.
Electropedia - www.electropedia.org

The world's leading online dictionary of electronic and electrical terms containing more than 30 000 terms and definitions in English and French, with equivalent terms in additional languages. Also known as the International Electrotechnical Vocabulary (IEV) on-line.

Customer Service Centre - webstore.iec.ch/csc

Category			
MEAS			
Subject	**Keywords**	**Developed by**	**Approved at**
Applied standard for batteries	Applied standard for batteries	ETF-3	2016 CTL Plenary Meeting

Question

Subclause 13.2.2 is followed by

“Note: For batteries and battery packs the following standards can additionally apply: IEC 62133 (battery packs), UL 1642 (lithium batteries), UL 2054 (rechargeable batteries)”

1. Why “can” and not “may” (for possibilities) or “shall” (for requirements)?
2. Do the batteries or battery packs have to comply with one of the three standards mentioned above?
3. Will the test of uncertified batteries or battery packs according to IEC 61010-1:2010, clause 13.2.2 be sufficient?
4. If item 3. above is not sufficient, which standard for uncertified batteries or battery packs is applicable?

Decision

For accepting batteries as components, clause 14.1 with figure 15 of IEC 61010-1 and decision IECEE-CMC/1232/INF should be used.

Explanatory notes

In many other safety standards the lithium battery or lithium battery packs have to be tested to either IEC 60086-4 or IEC 62133.
