■ CTL Provisional DECISION SHEET (PDSH)
□ CTL DECISION SHEET (DSH)

Standard(s) (incl. year)	Subclause(s)	Tracking No.
IEC 62196-1:2022	34 to 37	PDSH No. 2261
Category		
ELVH		
Subject	**Keywords**	**Developed by**
The temperature rise test is in accordance with clause 24	Temperature Rise	ETF 14

Question

Do the "N-Contact" (only the three-phase Variants), the "PE-Contact" and the “Pilot contacts” (for all products) also have to be checked during the temperature rise tests according to the new additional tests (sections 34 ... 37)?

Decision

Only the most severe case is assessed when testing the additional clauses 34-37.

L-contact is normally considered to be most severe case if N-Contact is not with higher temperature on clause 24 (temperature rise)
