COMMITTEE OF TESTING LABORATORIES

DECISION SHEET

Standard:	**Sub clause:**	**Dec. No.**
IEC 60950:1999, 3rd edition. **IEC 60950-1:2001, 1st edition**	**Annex P, Normative references**	**DSH-538**
Subject: **LASER STANDARD**	**Key words:** **Normative references, LASER**	**Decision of:** **40th CTL meeting/2003**

Question:

Is it acceptable, as an alternative, to use the latest version of the laser standard IEC 60825-1/A2:2001 together with, IEC 60950:1999, 3rd edition. and IEC 60950-1:2001, 1st edition?

Decision:

As an alternative to the Normative references in the standards mentioned above, IEC 60825-1/A2:2001 can be used in combination with these standards, when agreed to by the manufacturer..

Explanatory notes:

The normative Laser standard to be used for products incorporating a laser, in combination with the standards mentioned above is IEC 60825-1:1993.

Almost all manufacturers of LEDs and laser products covered of IEC 60065 and IEC 60950 are asking for testing to the latest version of IEC 60825-1.

This latest version of the laser standard is has a greater worldwide acceptance than the earlier versions.
